# About Quartermaine Distribution

Quartermaine Distribution are the UK's leading supplier of trusted product brands, making life easier and more comfortable around the home. We can be traced back to the 1950's where our heritage is in the sales and distribution of parts for paraffin heaters and lamps. As the market changed we introduced air coolers and diversified into storage products.

Quartermaine Distribution is now the market leader for vacuum storage bags as well as evaporative air coolers. In 2007 we moved into purpose built premises in Cheshire to enable us to further develop and serve our growing customer base.

Here at Quartermaine Distribution, we pride ourselves on providing the best quality products at a competitive price, teamed with exemplary customer service, whether it be for our own

brands or the brand we choose to partner with.

To demonstrate our commitment, we are ISO9001 accredited and also Investors in People accredited.

Our reputation is important to us and we are proud to be consistently amongst the top performing suppliers to many of our customers.
